0 to 1:

John: I believe it would be good PR if the DDA would send the attached letter to TAC members. Do you want to raise it with him before we print out individual letters to the 14 TAC members?

Delegate Robert Andrews

During the last three years, the CIA Traffic Advisory Committee (TAC) has formally met 13 times to discuss plans and community concerns regarding the offsite road program. In addition, there have been two special meetings with citizens of the Evermay community to discuss issues impacting only their community. Because of these meetings, we have developed a sound engineering solution to the traffic flow pattern along Routes 123 and 193 near our Headquarters Building while respecting the concerns of our neighbors. I sincerely hope that you and members of the organizations you represent share with me the feeling that we have all worked together toward a common goal.

I thank each of you who have played an active role in the formulation of the offsite road program. Now that the "raison d'etre" of the TAC has been completed, I am dissolving the TAC at this time in accordance with the final paragraph of the TAC charter. Please be assured that, as a good neighbor, the CIA will inform you if there are any significant developments in the Routes 123/193 road project which might have an impact on you.

Sincerely,

William F. Donnelly
